Give the gift of women's health. From €10 per woman.

We work with partners who give VITAMARIE to their employees or customers. Every license also gives one more woman a year of VITAMARIE, wherever the partner decides.

GIVE PREMIUM

For your employees

You provide VITAMARIE Premium as a benefit. The app reports nothing to you about individual women.

For your customers

You give Premium with your product, your membership or your consultation, as a manufacturer, pharmacy, studio, medical practice or insurer.

1 + 1

Every license counts twice. You decide where.

With every license, one more woman receives a year of VITAMARIE, for example at a women's shelter, the Red Cross or a university. If you make no choice, the second license goes to a women's shelter.

ZERO RISK FOR PARTNERS

No euro is lost

Licenses that are not activated are given away after the first year.

Exit after year 1

No reason needed and no commitment.

Price guaranteed

From the third year on, your price stays the same permanently.

WHAT IT DOES FOR YOU

Employers	**A benefit that helps your employees in everyday life.**	On 23 days a year, a female employee works at a third less capacity because of period symptoms. BMJ Open 2019
Manufacturers	**A gift with your product that your customer uses every day.**	Three out of four subscription customers order a second time. By the twelfth order, just under 6% are left. Recharge 2026
Pharmacies	**A gift from the consultation that stays with your customer in everyday life.**	Around one in five customers who get advice leaves without buying. IFH Köln 2019
Studios	**Added value for your members between training sessions.**	53.7% of members at Austrian gyms are women, 25.1% of members cancel each year. WKÖ 2025
Practices	**Your patient observes her cycle between appointments.**	From March 2027, Premium gives her a summary to bring along.

WHO IS BEHIND IT

Founders	Emilia Bessonova, biotechnologist (BOKU Vienna), and Georg Posan, CEO
Award	Rising Star Award at GoUSA Silicon Valley 2026
Funding	FFG and go-international (BMWET and WKO)
As seen in	Der Standard, Trending Topics, sheconomy, IT Boltwise

VITAMARIE from Vienna. Not a medical device, no diagnoses. Partners see no individual data and have no influence on the content. The app is ready to use on iOS and Android, Premium starts in March 2027.
